

Climate Change - The Dark World of Environmental and Economic Warfare

Are the Climate Action Plans Really Going to Prevent Climate Change?

The Climate Action Plans to Reduce (GHG) Emissions are the Corporations SCRIPT and COVER for Covert Weather Weapons and Economic Warfare Programs . . . A Silent Weapons System

The ruling corporations pretending to be governments are engaged in a silent weapons system of economic and weather warfare. The graph below tells us about the planned assaults upon our health and makes false claims of what will happen to you if you DO NOT reduce your CO² emissions.

The page illustrated above is out of the San Diego, CA - Climate Action Plan - page 9

NOTE: The CDC is listed on Dun & Bradstreet as a private for-profit corporation and as such the CDC was not established to serve the public or provide objective safe policies since the CDC 's only purpose is their corporate bottom line . . .

The carbon and air pollution taxes would target mostly the same sources, and in difficult economic times these taxes would hit companies with too many costly regulations. Many believe that carbon tax must be implemented while others believe it's a planned emissions trading scheme based upon false consensus science to combat climate change and reduce severe weather events. . .

The carbon tax is one method economic warfare is being waged upon the people by the government corporations and businesses.

These Climate Action Plans aka Sustainability Plans Promote the Desired Agenda Using the Rand Corporation "Delphi" Meeting Techniques creating Consensus to Determine the Outcomes. . . The Delphi Meetings are structured, controlled and facilitated communication techniques used in most meetings today to manipulate the public and reach the predetermined outcomes for the desired goals of the corporations who are behind the meetings. The Delphi Meeting System was used at the Climate Action Plan meetings to create an illusion of public agreement (consensus) to determine consensus science rather than real fact based science.

The Climate Action Plans are Based Upon False Consensus Science.

Many thousands of scientists tell us that we could reduce our CO² emissions by 100% and that would not affect the climate.

While there are many goals, one goal "buried" in the Climate Action Plans is the carbon tax. Carbon tax is a controversial environmental tax.

Many think it would be easier to push through without carbon in the mix.

"World War III will be a guerrilla information war with no division between military and civilian participation."

-Marshall McLuhan (1911-1980), Canadian thinker

'The nation which first learns to plot the paths of air masses accurately and learns to control the time and place of precipitation will dominate the globe.'

- General George C. Kenney, Commander of the US Strategic Air Command, in the 1940s.

The U.S. Air Force announced in 1996 they would own the weather by 2025 . . . They currently DO own the weather.

"Weather modification is the deliberate large-scale manipulation of the Earth's climate" - Harvard Kennedy School - Belfer Center for Science and International Affairs . . 2012
