

**Dr. Carol Rosin - Aerospace Executive – Fairchild Industries**

## **EXPOSES THE DANGEROUS PLOT AGAINST HUMANITY AND THE LAST CARD...THE FAKE ALIEN INVASION**

When I was a corporate manager of Fairchild Industries in 1974 through '77, I met the late Dr. Wernher von Braun in early '74. At that time, von Braun was dying of cancer, but he assured me that he would live a few more years in order to tell me about the game that was being played, that game being the effort to weaponize space, to control the earth from space and space itself.

The strategy that Wernher von Braun taught me was that first the Russians are going to be considered to be the enemy. And, in fact, when I met him in '74, they were the enemy, the identified enemy. We were told that they had killer satellites. We were told that they were coming to get us and control us, the dirty Commies, that whole story. First the Russians were going to be the enemy against whom we were going to build space based weapons.

Then terrorists would be identified and that was soon to follow. We heard a lot about terrorism.

Then we were going to identify third world country crazies. We now call them nations of concern. But he said that would be the third enemy against whom we would be needing to build space based weapons.

And the next enemy was asteroids. Now at this point, he kind of chuckled the first time he said it. Asteroids . . . against asteroids we're going to build space based weapons . . . so it was funny then.

And the funniest one of all was against what he called aliens, extraterrestrials. That would be the final card. And over and over and over, during the four years that I knew him, and was giving his speeches for him, he would bring up that last card. "And remember, Carol, the last card is the alien card. We're going to have to build space based weapons against aliens, and all of it is a lie."

He didn't mention a timeline, but he said that it was going to be speeding up faster than anybody could possibly imagine. That the effort to put weapons in space was not only based on a lie, but would accelerate past the point of people even understanding it until it was already up there and too late.
